Mamaroneck UFSD School Reopening Plans, presented July 30, 2020

If the district is compelled to implement a full remote learning plan, the above schedule maps out the daily progression of synchronous lessons. Teachers will launch each lesson with a whole-group session (e.g., mini-lesson, demonstration, discussion), then have the opportunity to split the class into breakout groups and/or individual practice sessions that they will monitor and facilitate before reconvening for whole-group closure.

This model comprises a block schedule in which classes meet every other day for 70 minutes. This plan builds on positive feedback from students, teachers, and parents about the alternating schedule implemented during remote learning in the spring of 2020.

This remote learning plan also incorporates the Advisory model described in the hybrid model, enabling children to have regular contact with a familiar, trusted adult in addition to supportive, structured interactions with peers.
